# WEBSITE MAINTENANCE AND HOSTING

# PEACE OF MIND

---

> **53% of mobile site visitors** abandon a page that takes longer than 3 seconds to load (Google)

We have a dedicated server for our clients and ensure all our sites are kept up to date at all times. We also create a backup of your site for added security. Peace of mind for all your website assets.

## WHAT WE DO

We grew tired of slow and unpredictable servers and insufficient back-up tools,so we opened our client-only server! All sites housed on our server are moved from their existing home, backed up regularly and have all those pesky WordPress plugins dealt with in a timely fashion.

All sites on our server are monitored in case of downtime, updated routinely and have an SSL security certificate added for protection. Additionally, your site will get minor updates as and when needed.If vulnerabilities arise in your plugins, we will patch them or find an alternative.

> Hackers attack **every 39 seconds,** on average **2,244 times a day** (University of Maryland)

> **28% of searches for something nearby** result in a purchase (Think With Google)

## HOW IT HELPS YOU

· Avoid unreliable servers with unexpected downtime
· Put your site in the hands of someone you trust
· Get updates and backups as part of your package
· Just switch off and let us maintain your site on autopilot

Small businesses can't afford to lose sales. The average small business loses $137 to $427 per minute during server downtime (Carbonite) and can be disastrous for your reputation. We use apps to track downtime and if your site goes down, we will be on it straight away.

Many hosting servers charge extra to backup your site, or don't offer it as an option at all, we understand how crucial it is to have the latest version backed-up in case of errors, amendments or other unforeseen circumstances. A backup file protects you from compatibility errors, hacker attempts and allows you to test new features in safety.

**81% of people** perform some type of online research before making a large purchase (Junto)

Get in touch with us to discuss your hosting needs and how we will maintain your site.
